

BMSB PHEROMONE

one₄all

AGGREGATION PHEROMONE FOR MONITORING AND
MASSIVE CAPTURE OF YOUNG AND ADULT
ASIAN BUG (Halyomorpha halys)

FEATURES:

Aggregation Pheromone with a guaranteed duration of five weeks, to be used in One4All traps or other types of traps through which you want to monitor the presence of the Asian Bug.

USAGE PROCEDURES:

- Store the seal pheromone in a cool place;
- Only open the Pheromone Package at the time of installation
- Place him inside a trap avoiding the extended contact with bare hands.
- Replace the Pheromone every five weeks in order to keep a stable ability of attraction and a capture level corresponding with the real presence of Asian Bug.

WARNINGS:

The efficiency of the aggregation Pheromone is guaranteed when it is used inside the BMSB trap. Other solutions have proven lower efficiency.
